

Focus Workshop on

Topology in Matter

KAIST Munji Campus, Daejeon, Korea
November 25-27, 2015

Invited Speakers

Han Woong Yeom (CALDES, IBS)

Pilkyung Moon (NYU, Shanghai)

Suk Bum Chung (CCES, IBS)

Myung Joon Han (KAIST)

Eun-Gook Moon (KAIST)

Sung Jong Woo (KIAS)

Gil Young Cho (KAIST)

Woo Ram Lee (KIAS)

Kun Woo Kim (KIAS)

Hosub Jin (UNIST)

Yea-Lee Lee (SNU)

Main Topics

Weyl Semimetals

Vortex dynamics

Quantum criticality

Topological band theory

Topological phase in He-3

Topological phase transitions

Topological magnetoelectric effects

Scientific Coordinator :

Hee Chul Park (PCS, IBS)

Applications for participation are welcome and should be made by filling the APPLICATION FORM, and sending the PDF of it to pcs@ibs.re.kr. The deadline of applications is Nov 22 2015. Limited funding is available to partly cover local and travel expenses, particularly for younger participants.

For further information please contact:

Dr. Mew-Bing Wan

Coordinator, Visitors Program

PCS, IBS, Daejeon, Korea
