

IBS Symposium

Theme:
Nonlinear Photonics

PROGRAM

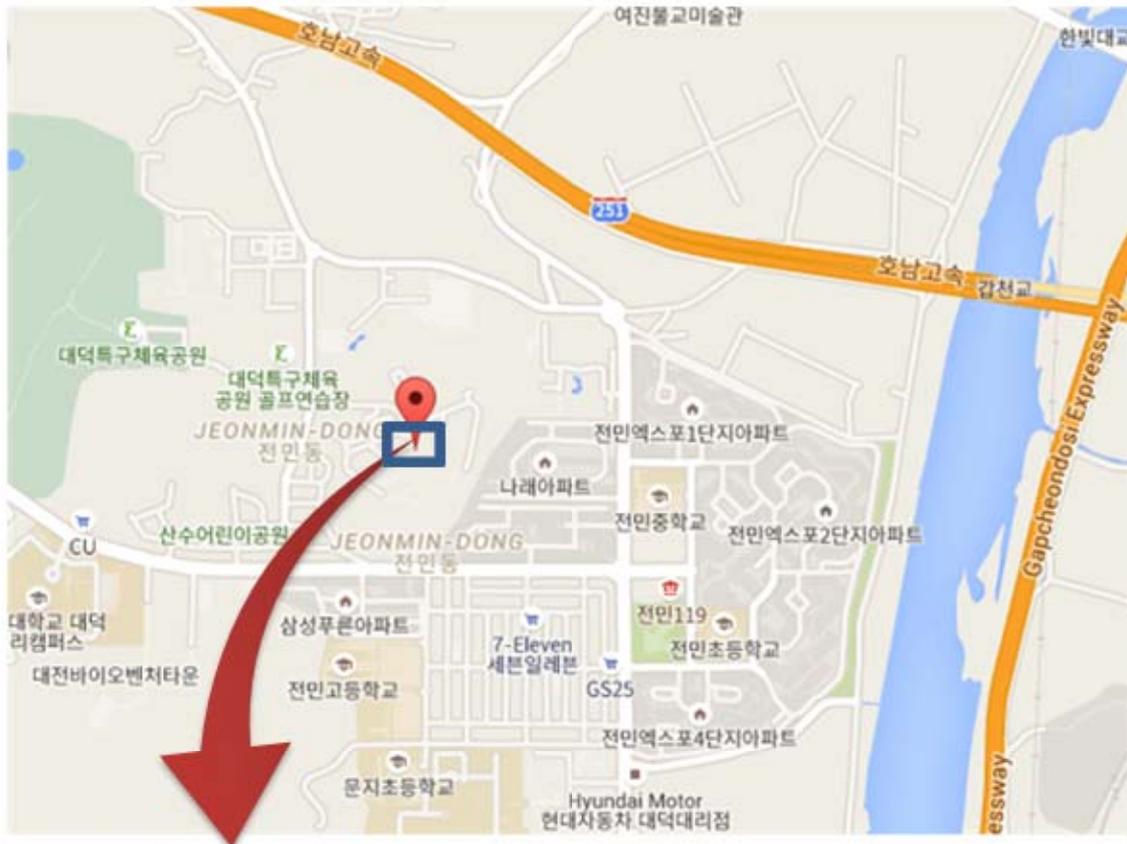

Thursday October 22 2015
CAMP, NIMS
Daejeon, South Korea

Contact e-mail: kimdahye@ibs.re.kr

□ Time Schedule

- 13:00-13:10 (10') *Opening Remarks*
David CAMPBELL (Boston University)
- 13:10-13:55 (45') *Between Localization and Ergodicity in Quantum and Classical Systems*
Boris ALTSHULER (Columbia University)
- 13:55-14:40 (45') *Nonlinear World of Fiber Lasers*
Sergei K. TURITSYN (Aston University)
- 14:40-14:50 (10') Break
- 14:50-15:35 (45') *Fano Resonances and Singular Optics at the Nanoscale*
Boris LUKIYANCHUK (Data Storage Institute)
- 15:35-16:20 (45') *Microwave Photonics*
Franco NORI (RIKEN / University of Michigan)
- 16:20-16:30 (10') Break
- 16:30-17:15 (45') *Quenching and Reviving Oscillations in Complex Networks – Challenges for Photonics*
Juergen KURTHS (PIK / Humboldt University of Berlin)
- 17:15-18:00 (45') *Fine Structure of Light in Singular and Nonlinear Photonics*
Anton S. DESYATNIKOV (Nazarbayev University / Australian National University)
- 18:00-18:10 (10') *Closing Remarks*
David CAMPBELL (Boston University)

□ Location

Address: **Institute for Basic Science, 70, Yuseong-daero 1689-gil, Yuseong-gu, Daejeon, Korea** (KT Daedeok Research Complex 2)
