We have identified two misprints in the appendix of the original paper [1]. For the SBAB<sub>2</sub> integrator (cf. eq. (A7)) the correct coefficient

$$c_2 = \frac{1}{2} .$$

For the SABA<sub>2</sub>C integrator (cf. eq. (A8)) the correct coefficient

$$g = (2 - \sqrt{3})/24 .$$

## Acknowledgements

We thank Uta Naether and Alejandro Martinez for pointing that out to us.
